Appeal 2009-013634 Application 10/518,907

- The above-entitled matter came on for hearing on Wednesday, July
- 2 14, 2010, commencing at 9:54 a.m., at the U.S. Patent and Trademark
- 3 Office, 600 Dulany Street, Alexandria, Virginia, before Janice Salas, Notary
- 4 Public.
- 5 THE CLERK: Calendar number 8, appeal number 2009-013634.
- Ms. McGovern.
- 7 JUDGE HAIRSTON: Thank you.
- 8 Ms. McGovern, do you have a business card with you?
- 9 MS. MCGOVERN: No. sir.
- 10 JUDGE HAIRSTON: Can I get you to spell your name for the record.
- 11 MS. MCGOVERN: M-E-G-H-A-N is my first name. My middle initial is
- 12 A as in Ann. McGovern is M-C-G-O-V-E-R-N.
- 13 JUDGE HAIRSTON: Thank you. You may begin.
- 14 MS. MCGOVERN: Good morning. My name is Meghan McGovern. I
- 15 represent the Appellant in this case, Cooper Crouse-Hinds. The rejections of
- 16 record in this matter should be reversed because none of the cited references
- 17 describes or suggests a branching device that includes at least one
- 18 electrically conducting wire terminal as recited in claim 1 of this application.
- 19 The wire terminal of claim 1 includes three elements: At least one
- 20 connecting lug, a through-channel for uninterrupted passage of a wire, a
- 21 holding-down clamp which holds the wires in the through-channel. The
- 22 holding-down clamp of the wire terminal exhibits a transverse plate that
- 23 closes off the through-channel.
- 24 Embo, the primary reference relied upon in rejecting this claim, does not
- 25 have a wire terminal with these features. The Examiner has pointed to
- 26 Embo's stamped part 9, which is shown in figure 3 of Embo, in combination

Appeal 2009-013634 Application 10/518,907

- 1 with Embo's plug contact 4, which is shown in figure 1 of Embo, as showing
- 2 the recited wire terminal.
- 3 However, neither of these elements nor their combination has the features of
- 4 our recited wire terminal. In particular, these elements do not include a
- 5 holding-down clamp that holds wires in a through-channel of the wire
- 6 terminal.
- 7 The Examiner, throughout prosecution and also in the Examiner's answer,
- 8 appears to be equating all those -- excuse me -- Embo's guides 13, which are
- 9 shown in figure 1 of Embo, in combination with Embo's plug part 5, which
- 10 is also shown in figure 1 of Embo, with the recited holding-down plate.
- 11 However, even if these elements can be combined, they're not included in
- 12 the elements that the Examiner is using to point to to show a wire terminal.
- 13 For these reasons, Embo -- at least these reasons, Embo does not show a
- wire terminal with the features of the wire terminal recited in claim 1 of this
- 15 application.
- 16 JUDGE HAIRSTON: Any questions?
- 17 JUDGE SAADAT: No questions.
- 18 JUDGE BAUMEISTER: No.
- 19 JUDGE HAIRSTON: Thank you.
- 20 MS. MCGOVERN: Well, thank you.
- Whereupon, the proceedings at 9:57 a.m. were concluded.
